CPU Benchmarks

Over 800,000 CPUs Benchmarked

----Select A Page ----

How does your CPU compare?

Add your CPU to our benchmark chart with **PerformanceTest V9!**

Multiple CPU Systems

This chart comparing multi CPU systems is made using thousands of **PerformanceTest** benchmark results and is updated daily. This chart mainly compares Dual CPUs, Quad CPUs and 8-way CPUs such as the Intel Xeon and the AMD Opteron processors which can be placed in multiple socket motherboards. These multi-CPU's are commonly used in server machines that require high performance CPUs with intensive processing capabilities such as web servers, gateway servers, VM servers and online gaming servers.

Unlike the other charts, this charts is only comprised of V8 and V9 submissions. We have released one last chart for PerformanceTest V7, available [here](#).

CPU Mark | Price Performance
